July 2022

July is Sarcoma Awareness Month! I am always impressed that Sarcoma has an awareness month and hope that everyone tells everyone about this cancer. Although it affects 1% of adult cancer patients, it does affect 15% of pediatric cancer patients. We should be shouting from the rooftops and coloring our cities yellow if we can. Help us continue to spread the word, warning signs, and support our efforts to ensure NO ONE FACES SARCOMA ALONE! Post your stories on social media, tag us, and let's continue to spread the word.

Thank you Knight Life Gala attendees and donors. We had a great night and amazing weather. Currently, we have raised about \$30,000. Congratulations to our 2021 and 2022 Sig Kohl Legacy Award Winners: '21 - Elana Emlen and '22 - Dr. Patricia Read-Williams. You can learn more about them and why they received the Sig Kohl awards on our [website](#).

Remember to continue to spread the word about Sarcoma not only in the month of July but all the time - if a lump or bump is larger than a golf ball - think SARCOMA and get it checked out! Thank you again everyone for your support, we could not do this work without you!

- Jo
